**CHIEF'S REPORT** Chief Tatum gave us an update on our vehicles and stated that it will cost about \$10,000.00 to repair #3512. After a long discussion Chief Tatum recommended that we strip all usable parts and salvage out the truck. He also told us that a couple of departments are talking about replacing some of their trucks so we may be able to pick up a better truck at a reasonable price. He then told us that he has been talking to the Security Fire Department and we may be able to make a deal with them to use one of their trucks now with the hopes of buying it as soon as they get their replacement trucks.
